RPG Books

BODA GAMES MANUFACTURING

Print the best version of your RPG book with Boda Games Manufacturing!

Turn your RPG book into something players will treasure. At Boda Games Manufacturing, we go beyond standard printing with a full range of premium papers, finishes, and features designed to elevate your project. We don't just print books, we build experiences. Think soft-touch covers, sewn bindings, ribbon bookmarks, and striking effects like spot UV or hot foil stamping. All this and more, custom tailored to help bring your RPG world to life.

Finishes that impress

Spot UV makes artwork shine with selective gloss, while hot foil stamping delivers metallic highlights that demand attention. Embossing and debossing add texture, letting players feel the details as they explore your story. Even a simple ribbon bookmark can combine elegance with functionality, keeping readers immersed without breaking the flow.

Papers that define the mood

Glossy stocks make colors leap from the page, while matte papers lend sophistication. Heavier weights add durability and presence, and textured or parchment papers set the perfect atmosphere for fantasy worlds. The right paper doesn't just carry your content, it enhances it.

Beyond the book

RPGs often extend far past the printed page, and so do we. From punchboards and cards to custom dice and miniatures, we help integrate every component into a complete boxed set. With our expertise in board game manufacturing, you can create a unified product that captures your world in every detail.

Partner with Boda Games

Don't just publish a book: craft a legacy. With our experience, precision, and creativity, we'll help you deliver an RPG experience that players will remember long after the final page.

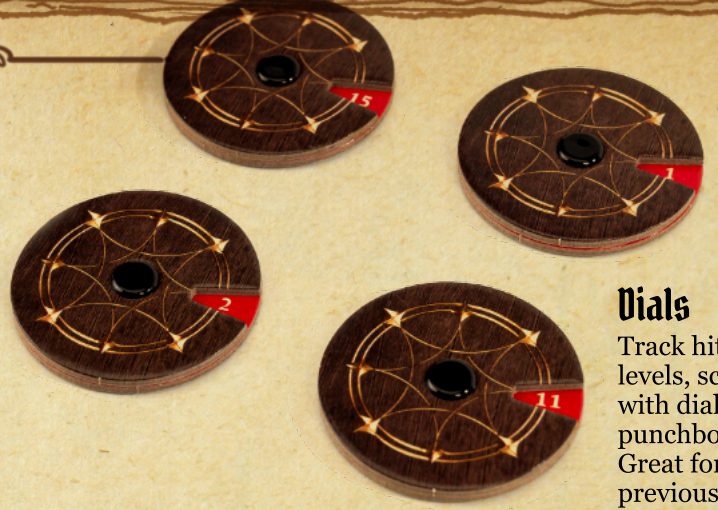

Don't settle for the ordinary. Explore the extraordinary with Boda Games Manufacturing and bring your RPG to life!

The Boda Games Team

Components

Make your RPG book into a full blown experience by adding other components to it like punchboards, cards, dials, dice and miniatures!

Dials

Track hit points, power levels, scores and more with dials made from punchboards and rivets. Great for resuming previous games as well!

Punchboards

Physical tokens, score trackers, standees and more made out of punchboard. Bring your RPG to life with physical components!

Dice

You can't spell RPG without dice. Stop rolling boring, standard dice and upgrade them to custom, beautiful dice!

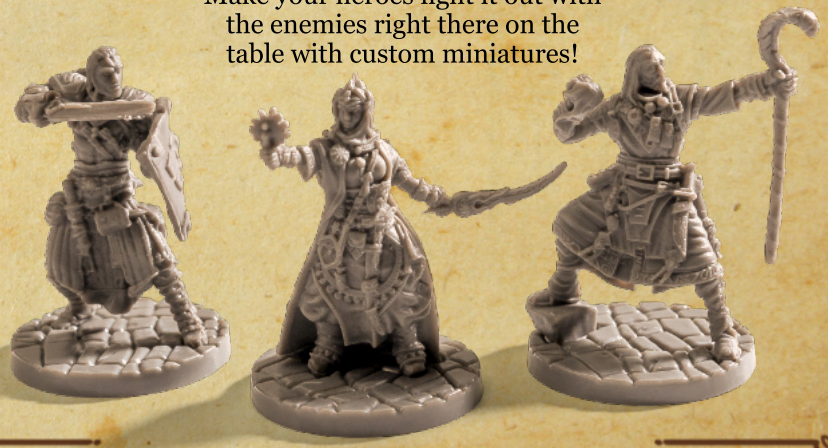

Cards

With cards you can add characters, special power-ups, weapons and more, right there in your hands!

Miniatures

The ultimate way to bring an RPG alive: miniatures on the table. Make your heroes fight it out with the enemies right there on the table with custom miniatures!

Finishes

UV Coating

High gloss or matte finishes that offer extra durability and vibrant colors.

Spot UV

Add gloss to specific areas of the cover to draw attention and create a striking contrast effect.

Embossing & Debossing

Raised or recessed designs for added texture and emphasis on titles or logos.

Hot Foil Stamping

Metallic foil accents add a premium look, available in various colors including gold, silver, and holographic.

Soft-Touch Lamination

Give your book cover a velvet-like feel by adding a luxurious tactile experience.

Special Papers

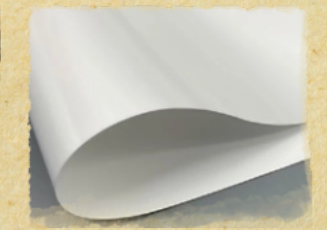

Textured Papers

Linen, felt, and laid textures can add a distinct feel to the pages or covers.

Specialty Color Papers

Add a splash of personality and uniqueness to your RPG book with specialty color papers.

Synthetic Papers

Waterproof and tear-resistant papers suitable for books that require durability.

Additional features

Edge Treatments

Colored Edges

Adds a pop of color to the book's edges, creating a unique look.

Gilded Edges

Luxurious gold or silver edges for a high-end appearance.

Custom Inserts and Add-ons

Maps and Fold-Outs

Perfect for RPG's, offering additional value to the readers.

Pocket Inserts

Great for holding character sheets or additional resources.

Custom Endpapers

Design options for the inner cover pages that can add a thematic element to the book.

Ribbon Markers

Built-in bookmarks that enhance the utility and presentation of the book.

Lay-Flat Binding

Allows the book to stay open flat, ideal for reference-heavy RPG books.

Services

Boda Games supports you every step of the way!

Consultation Services

Boda Games will guide you in selecting the right materials, finishes, and binding methods for your project. From paper thickness and special finishes to custom inserts and add-ons, we provide practical advice to balance cost, durability, and aesthetics.

From Sampling to Mass Production

Boda Games supports your project from the early sampling stage all the way up to mass production. Samples allow you to review and adjust as necessary before moving on the definitive specifications.

Shipping

Boda Games coordinates shipping directly to your warehouse, fulfillment partner, or multiple destinations worldwide. Our logistics team handles export documentation, customs requirements, and delivery scheduling.

Prepress

We provide detailed prepress checks to ensure your files are optimized for print. Our team verifies color profiles, bleed, margins, and special finishes like foil or UV to avoid costly delays. We also provide templates and technical guidance to make the process quick and easy.

Crowdfunding

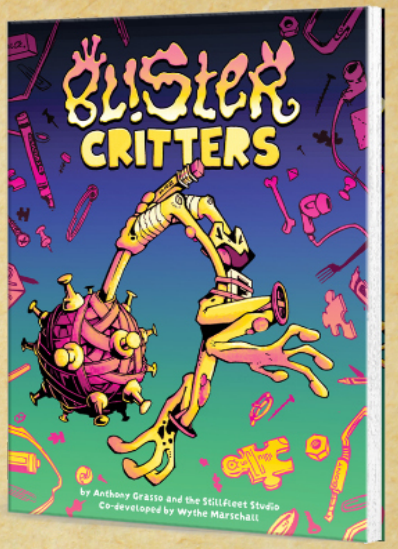

Launching on Kickstarter, Gamefound, or another platform? Boda Games helps you prepare with confidence. We assist in budgeting and planning, brainstorm stretch goals and add-ons, and advise on logistics planning. We help align the production schedules so your backers receive their rewards on time.
